In your own way, travel back in time. Farther and farther back gathering all similar experiences together in one point of time. Past and connected to the Present.

1. Discover the situation, why there is a problem, how the problem was solved with the creations of the job spoken of because of beliefs about self, life, planet.
2. here is were you could use the Time Travel questions.....
3. "Ask your guides, What was the correct message?"
4. Bring in the Sophia Collective to add the voice of authority.
5. Design how this problem is solved with the new information and authority.
6. Travel back to your aspect that spoke to give thanks for holding the space for this new information.
7. Place that aspect into the Hands of those within Divine Good with a Reality Statement that declares the new Outcome/Possibility.

TAG Question Process in the Time Travel:

2. About what age
3. What I feeling?
4. What has caused these feelings?
5. What did I choose to believe about life? self? love?
6. How did I decide to live within the situation and my story?
